

LOGISTICS & SUPPLY CHAIN MANAGEMENT

47-Week Diploma Program

Wage Statistics*1:

Program Overview:

Supply chain management involves all the moving and storage of raw materials, work-in-process inventory, and finished goods from point-of-origin to point-of-consumption. The organization of people, activities, information, and resources ensures the satisfaction of end product to end customer.

Industry-Relevant Information:

- Businesses large and small rely on supply chain efforts to keep operations running smoothly, which translates to plentiful job opportunities.
- Efficient supply chain must result in tangible business improvements, including cost reduction and revenue growth strategies.
- Supply chain management professionals are more crucial than ever, especially due to COVID-19.²

Why Choose Reeves College?

- Receive knowledgeable training from practitioner-instructors who currently work in the field.

- Contract & Relationship Management

Program Features:

- Compressed, fast-paced program, with exams each week, to prepare you for a multitude of career options in a short amount of time.
- Daily slide shows, class discussions, and in-class assignments with both individual and group work.
- This program has been approved for advanced standing towards attaining the Supply Chain Management Professional (SCMP) designation.

Frequently Asked Questions:

Where can I work once I graduate?

As a first role, a hotel position offers much diversity as you're exposed to purchasing linens, cutlery, alcohol, etc. Entry level positions in purchasing or inventory are great building blocks for career growth.

What if I can't keep up with the pace of the program?

New students are paired with existing students so they can learn faster and as part of a team.

“

My instructor helped me out immensely. He had a deep knowledge pool of the industry with many years of experience. He was patient. He taught us well. He taught us a whole lot of extra information that wasn't covered in the curriculum, and he was a fantastic guy.”

-Chris, Logistics & Supply Chain Management Graduate
